

Carehold 200 g

Anti-slip stabilizer paper sheet

Resistant to inclinations higher than 45°

Reduction of packaging and logistics costs

Reduction of returns and breakages in transport

Space optimization and saving on pallets

Reusable and 100% recyclable paper

Heat and humidity resistant

Contributes to the reduction of the carbon footprint

Customizable with your brand image

Technical Specifications Carehold 200 g

	Unit	Regulations	Value
Weight	g/m ²	NF En ISO 536, 1996	200
Thickness	μ	NF En ISO 534, 2005	320
Toxicity			Null
Recyclability			Yes
Slip angle	Gradually	NF Q3-083	<45°
Static friction	Gradually	ISO 8295	≥0,9
Dynamic friction	Gradually	ISO 8295	≥0,7
